TECHNOPATH
CLINICAL DIAGNOSTICS

Multichem™ AE

Providing Third-Party Test Consolidation for
Ammonia and Ethanol QC in a Liquid Stable Format

Features

- Human based proprietary formulation.
- Mimics performance of patient samples.
- Targeted at key clinical decision points.
- Liquid for ease of use.

Specifications

- 36 month closed vial stability at -20°C to -80°C.
- 14 day open vial stability at 2°C to 8°C.

Product	Description	Configuration	Part Code
Multichem AE	Multichem AE L1	12 × 2ml	AE611X
	Multichem AE L2	12 × 2ml	AE612X
	Multichem AE L3	12 × 2ml	AE613X
	Multichem AE (Bi-Level)	2 × 6 × 2ml	AE600X
	Multichem AE (Tri-level)	3 x 4 x 2ml	AE610X

QUALITY CONTROLS FOR OPTIMAL PATIENT CARE

Multichem™ AE Analyte List

Analytes

Ammonia

Ethanol

Designed to complement and support TECHNOPATH's Multichem Quality Control (QC) product range.

IAMQC Software provides Laboratory Managers and Technologists with a range of QC software tools to analyse their QC results in real-time. IAMQC Software products allow users to automate, centralise and standardise QC processes in a laboratory setting. Our combination of software modules satisfy the varying levels of QC requirements in individual laboratories and are easily tailored to meet different QC management expectations.
